Summary

I am a Bachelor's degree pursuing student seeking an internship to add value to the company by applying programming knowledge into practical field use. I am energetic, hard working and enthusiastic web developer and student eager to contribute to team success with my skills. Previous informal experience with Android development and Machine learning has been gained by making college projects. Primary experience and interests include web development (frontend and backend) and machine learning. I have a huge passion of working with MERN stack development. I love to work on collaboration that suits your company strategy.

Skill Highlights

- HTML, CSS, JAVASCRIPT
- Jquery, AJAX
- React, Webpack, Babel
- Python and Dango Framework
- Numpy, Scikit Learn, Tensorflow
- Node JS, Express, Sequelize, MongoDB

Experience

Web Development and android application development

I have a good experience of working with full stack applications. I have developed and deployed few large scale applications like e-commerce applications, social network application, etc. I have learned and gained huge insights of fundamentals of programming languages, data structures and algorithms, etc. I have also worked on android app development as college minor project and Machine learning on Major project.

Education

Bachelor In Engineering (Computer): **Kathmandu Engineering College: 2016 – present**

Plus 2 (Computer Science) - **Gramin Aadarsha Multiple Campus, Nepaltar, Kathmandu – 66%**

SLC – **Sagarmatha English Boarding School, Katari, Udayapur – 76%**

Projects

- Restaurant Management System(Minor College Project)
- Smart AI Assistant(Major College Project)
- Divya Clothing
- Developers Network and many more.

Courses taken

- MERN Stack Front To Back: Full Stack React, Redux & Node JS by Brad Traversy
- Complete React Developer in 2020(w Redux, Hooks, GraphQL) by Yihua Zhang
- Node JS – The Complete Guide(MVC, REST APIs, GraphQL, Deno) by Maximilian Schwarzmuller
